01 PRODUCT OVERVIEW

Compression Couplings & Spiral Bolt Clamps

Industrial-grade compression couplings and spiral double bolt clamps for joining tube sections without welding. Available in multiple clamp counts for light, standard, and heavy-duty conveying systems. Options include red rubber and neoprene gaskets.

02 ORDERING & SELECTION GUIDE

Key Considerations

How to Order

Specify pipe OD, material (Black Steel or Stainless), clamp count, and gasket preference. Include mm size for precision specs.

Clamp Count

2C = light duty. 3C = standard duty (most common). 4C = heavy duty or high-pressure applications.

Spiral Bolt Clamps

Right-hand (R) or left-hand (L) for joining spiral-seam tube sections. Tightened progressively for even clamping force.

Gasket Options

Red rubber standard. Black neoprene for cooler service. White neoprene available on special request.
