01 PRODUCT OVERVIEW

Straight Tube & Pipe for Conveying Runs

Seamless aluminum and stainless steel tubing in standard gauges, sold per linear foot. Available in nominal OD sizes to match industry-standard couplings and fittings. Schedule 40 pipe available for higher-pressure applications.

02 ORDERING & SELECTION GUIDE

Key Considerations

How to Order

Specify OD, gauge (11 GA, 14 GA, 16 GA), desired length in feet, and material. Custom cut lengths available.

Tube vs Pipe

Tube = OD-based sizing (2", 3", etc). Pipe = nominal/schedule sizing (1-1/2" nominal). Both available.

Cutting to Length

Standard 20 ft coils available. Custom-cut lengths can be ordered; beveled and chamfered on request.

Support Spacing

Use tube clamps on channel/unistrut supports spaced every 8–10 ft for proper system stability.

Technical Data & Specifications

Aluminum and stainless steel straight tubing. Sold per foot. Click any row for details.
